THE QUIZ
Is Your Home Internet Safe?

Answer the 10 questions below to identify areas of potential digital risk in your home.

1. Do you perform periodic checks of your kids' digital devices, including the search and texting history, checking passwords and apps downloaded?
2. Do you know the usernames and passwords for your kid's devices <u>and</u> apps?
3. Do you have a bedtime turn-in time for all electronics?
4. Do you have a filter and webpage monitor on your home's wireless router?
5. Do you use a filtered browser on all of your portable Internet-ready devices?
6. Have you asked parents of your child's friends what their own Internet-usage expectations are?
7. Do you know what you would say if your kid told you he/she has been looking at porn online?
8. Do you know what apps are on your kid's phone(s) and how they are used?
9. Do you have rules around Internet usage in bedrooms?
10. Have you had consistent, direct conversations about appropriate Internet usage, sexuality, and the negative impacts of porn on the brain and relationships?

If you answered "no" to any of these questions, then your home might be exposed to increased and unnecessary Internet risk. The links below can help you find solutions.
